 - I. Regular mail
 - II. Personal delivery
 - III. Certified or registered mail, return receipt requested
 - IV. Email

25. ABANDONMENT:

If Tenant vacates the Leased Premises before the end of the Lease term or renewal thereof without written permission from the Landlord, Landlord may, at Landlord's sole discretion, hold Tenant in default of this Lease Agreement. If the Tenant fails to follow proper move out procedures, Tenant will be responsible for any and all damages and losses allowed by federal, state and local regulations as well as this Lease.

- A. BY SIGNING THIS LEASE AGREEMENT, THE TENANT AGREES THAT UPON SURRENDER OR ABANDONMENT, AS DEFINED BY CHAPTER 83 OF THE FLORIDA STATUTES, THE LANDLORD SHALL NOT BE LIABLE OR RESPONSIBLE FOR THE STORAGE OR DISPOSITION OF THE TENANT'S PERSONAL PROPERTY.

26. LANDLORD'S REMEDIES:

If Tenant violates any part of this Lease Agreement including non-payment of rent, the Tenant is in default of this Lease Agreement. In the event of a default, the Landlord may initiate legal proceedings in accordance with local and state regulations to evict or have Tenant removed from the Leased Premises as well as seek judgment against Tenant for any monies owed to Landlord as a result of Tenant's default.

- A. The Tenant agrees that any expenses and/or damages incurred as a result of a breach of the Lease Agreement including reasonable attorney's fees will be paid to the prevailing party.
- B. The Tenant agrees that any court costs and/or fees incurred as a result of a breach of the Lease Agreement will be paid to the Landlord or the prevailing party.

27. SUBORDINATION:

This Lease Agreement is subject and subordinate to any lease, financing, loans, other arrangements, or right to possession with regards to the building or land that the Landlord is obligated to now or in the future including existing and future financing, and/or loans or leases on the building and land.

28. CONDEMNATION:

If the whole or any part of the Leased Premises is taken by any authority having power of condemnation, this Lease Agreement will end. Tenant shall peaceably vacate the Leased Premises and remove all personal property and the lease terms will no longer apply. The Tenant, however is responsible for all rent and charges until such time that Tenant vacates the Leased Premises.

29. ASSIGNMENT OR SUBLEASE:

Tenant agrees not to transfer, assign or sub-lease the Leased Premises without the Landlord's written permission.

30. JOINT AND SEVERAL LIABILITY:

The Tenant understands and agrees that if there is more than one Tenant that has signed the Lease Agreement, each Tenant is individually and completely responsible for all obligations under the terms of the Lease Agreement.

31. MISREPRESENTATION:

If any information provided by Tenant in application for this Lease is found to be knowingly incorrect, untruthful and/or misleading, it is a breach of this Lease.

32. BINDING OF HEIRS AND ASSIGNS:

All provisions, terms and conditions of this Lease Agreement shall be binding to Tenant, Landlord, their Heirs, Assignees and Legal Successors.

33. SEVERABILITY:

If any part of this Lease Agreement is not valid, enforceable, binding or legal, it will not cancel or void the rest of this Lease Agreement. The remainder of the Lease Agreement will continue to be valid and enforceable by the Landlord, to the maximum extent of the laws and regulations set forth by local, state and federal governments.

34. GOVERNING LAW:

This Agreement shall be governed, construed and interpreted by, through and under the Laws of the State of Florida.

35. ADDITIONAL CLAUSES:

- A. RADON GAS: Radon is a naturally occurring radioactive gas that, when it has accumulated in the building in sufficient quantities, may present health risks to persons who are exposed to it over time. Levels of radon gas that exceed federal and state guidelines have been found in buildings in Florida. Additional information regarding radon and radon testing may be obtained from your County Public Health Unit.

36. PARAGRAPH HEADINGS:

Paragraph headings in this Lease Agreement are for convenient reference only and do not represent the rights or obligations of the Landlord or Tenant.

EARLY TERMINATION OF TENANCY ADDENDUM

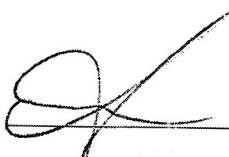

This LEASE ADDENDUM is incorporated into and made part of the lease executed on September 22, 2023 by and between Sunni Milo (Landlord) and Emily Walden Callanan, Todd Millwater (Tenant[s]) for the Leased Premises located at 521 Lafayette St, C, Port Orange, FL 32127.

If Tenant(s) choose to move out before the end of the lease term, or renewal thereof, Tenant(s) understand that the Landlord will incur costs, which include, but are not limited to, the time and expense in finding and renting to a new Tenant. These costs may include employee costs, advertising, marketing, and other expenses. Naturally, the exact amounts of these costs vary and are difficult to determine.

Tenant(s) agree that he/she prefers to have a fixed, known amount that the Tenant agrees to pay if the Tenant moves out early, rather than taking a chance that the actual costs could be more or less than this agreed-to amount. Therefore, Tenant(s) agrees to pay to the Landlord an early move-out charge in the amount of **(1 MONTHS RENT)** to cover the Landlord's expenses in having to re-rent the Leased Premises in place of paying the Landlord's actual damages. To implement this option, Tenant must submit an advance written notice to the Landlord of at least **30 days** before termination.

Tenant(s) have also evaluated and understand agree that this charge is a very reasonable estimate of the Landlord's re-renting costs. Tenant(s) also agree to pay this charge whether or not the Landlord is successful in re-renting the Leased Premises. Additionally, the Tenant(s) understand that this charge is not a penalty or fee that relieves the Tenant(s) of his/her obligations under the Lease. Tenant(s) is/are still responsible for all obligations under the Lease, including paying for all rent due, damages, and other charges.

The tenant has read, understands and agrees to this Addendum. In the event of a default, the Landlord may initiate legal proceedings in accordance with Florida and local regulations to evict or have the Tenant removed from the Leased Premises; as well as seek judgment against the Tenant for any monies owed to the Landlord as a result of the Tenants default.

POOL WAIVER, RELEASE AND RULES

Landlord: [Sunni Milo]

Tenant: [Josephine Hill, Mark Hill, Robert Hill, Belinda Bullock]

Leased Premises: [521 Auburn Ave], [Altamonte Springs Fl, 32714]

This LEASE ADDENDUM is incorporated into and made part of the Lease executed by the Landlord and the Tenant referring to and incorporating the Leased Premises.

POOL AND TIMER MUST RUN FOR NO LESS THAN 10 HOURS PER DAY. Failing to run pool pump for this minimum duration will result in the breach of Lease Agreement.

- At no time is there a lifeguard on duty, you (the renter) are responsible for the safe operation of the pool and are responsible for all persons using the pool during your stay.
- My use of the pool facilities during my stay involves certain risks, including but not limited to:
 1. The risk of injury resulting from possible malfunction of the pool equipment;
 2. The risk of injuries resulting from tripping or falling over obstacles in the pool area;
 3. The risk of injuries resulting from unsupervised divers and swimmers colliding;
 4. The risk of other injuries resulting from participating in any action in the pool.
- I recognize and fully understand that the above list is not a complete or exhaustive list of all possible risks; the list only provides examples of types of risks that I am assuming. In exchange for the Owner allowing me to utilize the pool and area during my stay, I hereby agree to the conditions below. I fully intend and choose to give up the legal rights, as stated below:

1. TO WAIVE ANY AND ALL CLAIMS that I have or may have in the future against the Owner, its directors, officers, employees, agents, or representatives (hereinafter referred to as the "Releasees") relating to my use of the pool and pool area;

2. TO RELEASE THE RELEASEES from any and all liability for any loss, damage, injury, expense, or other cost that I may suffer or that my next of kin may suffer in connection with my use of the Releasees pool or pool area to any cause whatsoever, INCLUDING NEGLIGENCE ON THE PART OF THE RELEASEES;

3. TO HOLD HARMLESS AND INDEMNIFY THE RELEASEES from any and all liability to property, or personal injury to, any third party, resulting from the use of the pool or pool area

4. That I am over the age of 18 and that I am responsible and will adhere to all the rules of the property;

5. That this Waiver, Release, and Agreement is fully effective and shall be effective and binding upon me, and my heirs, next of kin, executors, administrators, and assigns, or anyone else authorized to act on my behalf or on behalf of my estate.

The Tenant understands that violation of this addendum is a default of the Lease and will result in the Landlord taking the necessary steps towards eviction of the Tenant. The Tenant may then be responsible for the rent remaining due for the balance of the Lease term, court costs, attorney fees, and other charges in accordance with all applicable Florida and local laws and regulations. If there should be any conflict between the provisions of the Lease Agreement and this Addendum, the provisions of this Addendum will control. All other terms and conditions of the Lease Agreement will remain in full force and effect unless otherwise agreed upon in writing by the parties.

RELEASE OF LIABILITY AND ASSUMPTION OF RISK

Caution: Read before signing

This document affects your legal rights and will bar your right to sue!

Landlord: Sunni Milo

Tenant: Emily Walden Callanan, Todd Millwater

Leased Premises: 521 Lafayette St, C, Port Orange, FL 32127

This LEASE ADDENDUM is incorporated into and made part of the Lease executed by the Landlord and the Tenant referring to and incorporating the Leased Premises.

In consideration of the Lease Agreement signed by both the Landlord and Tenant on _____ (date), Tenant, by signing below, hereby waives and releases Landlord, its owners, agents and employees from any liability and/or claim for personal injury, property damage, or death that may arise from Tenant's use of the facility regardless of cause, even if such cause can be associated in any way by the acts of failures to act of the Landlord, or any of its agents, or employees in the installation, adjustment, inspection, maintenance and/or rental of the facility, or from the Tenant's use of the facility.

By signing below, Tenant accepts total responsibility for any and all injuries or damages of any kind which my result from any reason in the use of the facility, and it is the Tenants intention to HOLD HARMLESS the Landlord for any injury sustained by Tenant or anyone else, regardless of cause, while using the described facility.

I, the undersigned, acknowledge that I have carefully read this release of liability / assumption of risk and understand its contents. I am aware that by signing this release, I am waiving certain legal rights, including the right to sue the Landlord for any reason.

The Tenant understands that violation of this addendum is a default of the Lease and will result in the Landlord taking the necessary steps towards eviction of the Tenant. The Tenant may then be responsible for the rent remaining due for the balance of the Lease term, court costs, attorney fees, and other charges in accordance with all applicable Florida and local laws and regulations. If there should be any conflict between the provisions of the Lease Agreement and this Addendum, the provisions of this Addendum will control. All other terms and conditions of the Lease Agreement will remain in full force and effect unless otherwise agreed upon in writing by the parties.

PET ADDENDUM

Landlord: Sunni Milo
Tenant: Emily Walden Callanan, Todd Millwater
Lease Premises: 521 Lafayette St, C, Port Orange, FL 32127

This LEASE ADDENDUM is incorporated into and made part of the lease executed by the Landlord and the Tenant referring to and incorporating the leased premises.

Type of Pet: Dog Name: BUTTERS Breed: Rednose Pitbull
Type of Pet: _____ Name: _____ Breed: _____
Type of Pet: _____ Name: _____ Breed: _____

All dogs and cats must wear vaccination tags attached to a collar that is worn at all times. The Tenant will maintain a valid rabies vaccination certificate issued by a licensed veterinarian. It must include the animal's name, description, age, date and type of vaccination. The Tenant must renew all pet registrations annually, and provide a copy of the registration to the Landlord.

Cats and dogs must be neutered/spayed. Any reptile, fish or pet that is considered a poisonous species is prohibited. The Tenant cannot maintain exotic animals or livestock in the rental home, grounds or community property. The breeding of privately owned animals is prohibited.

Any damage to the leased premises caused by a pet or an aquarium leak must be immediately repaired, cleaned and/or replaced at the Tenant's expense (including but not limited to stained carpets, broken window shades or blinds, and scratched and chewed cabinetry). The Tenant must protect all carpeting from odor, infestation and stain by cleaning it annually. The Landlord reserves the right to inspect the Leased Premises (while providing proper notice) periodically in order to assess any possible damages.

Continual reports of excessive animal noise (such as a barking dog or loud bird) will be grounds for the Landlord's withdrawal of permission, after which the Tenant will have to remove the pet(s) from the premises immediately. Pet owners must ensure the proper disposal of a deceased animal according to Florida and local regulations. Burial of the deceased pet on the property grounds is strictly prohibited. When outdoors, all pets must be on a leash and under the control of a mature and responsible individual. Pets may not be tethered or left unattended outside at any time. Pets are barred from any community area such as playgrounds, pools and game courts.

The Tenant agrees to clean and properly dispose of all pet waste, both inside and outside the rental property, on a daily basis. No excrement is to remain on the grounds. Security and/or pet deposits are only refunded after the property has been vacated and examined by the management.

Service Animals are not pets, but provide assistance to disabled residents. By law, the Landlord must allow service animals for Tenants who have an apparent or verified need that they require them in order to afford a disabled Tenant fair use and enjoyment of the facilities. Additional deposits and or pet rent are not required for service animals, but Tenant(s) are responsible for cleaning up after the animal. Tenant(s) are also responsible for any damage done to the unit, building or grounds, beyond reasonable wear and tear. Service animals must meet local and state laws for vaccinations. Landlord requires the animal to be housebroken and neutered or spayed.

If the Tenant violates any part of this Addendum, the Tenant is then in default of the Lease. In the event of a default, the Landlord may initiate legal proceedings in accordance with Florida local regulations to evict or have the Tenant removed from the Leased Premises as well as seek judgment against the Tenant for any monies owed to the Landlord as a result of the Tenants default.

ADDENDUM: TENANT GUEST POLICY

LANDLORD: Sunni Milo
TENANT(S): Emily Walden Callanan, Todd Millwater
LEASED PREMISES: 521 Lafayette St, C
LEASE DATE: September 22, 2023

This Addendum is incorporated into and made part of the Lease executed by and between Sunni Milo and the Emily Walden Callanan, Todd Millwater for the Leased Premises located at 521 Lafayette St, C, Port Orange, FL 32127.

A "guest" is defined as a person invited into the Leased Premises by the Tenant(s) and/or Occupant(s).

A guest may not stay overnight for more than 3 consecutive nights without the written permission of the Landlord.

All guest(s) must observe and obey all terms and conditions contained in the Lease. If the Tenant and or the Tenant's guests violate any part of this Guest Policy, the Tenant is then in default of the Lease. In the event of a default, the Landlord may initiate legal proceedings in accordance with Florida and local regulations to evict or have the Tenant removed from the Leased Premises as well as seek judgment against the Tenant for any monies owed to the Landlord as a result of the Tenant's default.

SMOKE-FREE PROPERTY ADDENDUM

Landlord: Sunni Milo

Tenant: Emily Walden Callanan, Todd Millwater

Leased Premises: 521 Lafayette St, C, Port Orange, FL 32127

This Smoke-Free Property Addendum is incorporated into and made part of the lease agreement (Lease) executed by and between Sunni Milo (Landlord) and Emily Walden Callanan, Todd Millwater (Tenant) for the Leased Premises located at 521 Lafayette St, C, Port Orange, FL 32127.

The Landlord has implemented a "No Smoking" policy due to the known health effects of secondhand smoke, increased costs incurred due to additional maintenance and cleaning, fire risks, and higher insurance costs associated with permitted smoking in the building.

For this Smoke-Free Property Addendum, smoking is defined as inhaling, breathing, or carrying and lit cigarette, cigar, pipe, vape device, or other tobacco or non-tobacco smoked product in any form, legal and illegal.

Smoking of any illegal substance is prohibited anywhere on the property. For purposes of this paragraph "smoking" includes but is not limited to pipe smoking, cigarette smoking, and cigar smoking. Our smoking policy is checked below.

Smoking of tobacco or any other legal substance is not allowed anywhere in the common areas, in any building, or in apartment, house or balcony.

Smoking of tobacco or any other legal substance is allowed in the following checked areas only:

In the unit

On balconies

Outside in common areas

The Tenant(s), occupants, and Tenant's invitees and guests acknowledge the Leased Premises are designated as a smoke-free living space. No smoking anywhere within the rental unit is permitted. Where applicable, smoking shall not be permitted in any common areas, including but not limited to hallways, adjoining grounds, balconies and/or patios.

Tenant(s) acknowledges that the Landlord does not promise or guarantee of smoke-free living space. Additionally, Tenant(s) acknowledges that Landlord's implementation of smoke-free living space does not make the Landlord responsible for the Tenant's health or of the smoke-free condition of the Tenant's unit and the common areas. However, Landlord will try to enforce the terms within this Smoke-Free Property Addendum with the Lease to create a smoke-free environment.

Tenant accepts that Landlord has limited ability to police, monitor, or enforce the terms of this Smoke-Free Property Addendum. Tenant understands enforcement depends upon the compliance of the Tenant(s), occupants, Tenant's guests, and invitees. Landlord puts on notice any Tenant(s) with respiratory illnesses, diseases, allergies, or any other physical or mental condition relating to the effects of smoke that the Landlord assumes no greater duty of care to enforce this Addendum than any other landlord obligation under the Lease.

If the Tenant violates any part of this Addendum, the Tenant agrees to pay a fee of \$450 as a reasonable estimate of damages incurred by the Landlord.

If the Tenant violates any part of this Addendum, the Tenant will then be in default of the Lease. If a default occurs, the Landlord may initiate legal proceedings under all applicable laws and regulations to evict or have the Tenant removed from the Leased Premises and seek judgment against the Tenant for any monies owed to the Landlord because of the Tenant's default.

Release of Liability and Assumption of Risk

NOTE: Read thoroughly before signing. This document impacts your legal rights and will bar your right to sue.

Tenant's name: Emily Walden Callanan, Todd Millwater
Property Address: 521 Lafayette St, C, Port Orange, FL 32127

I, Emily Walden Callanan, Todd Millwater, voluntarily sign this Release of Liability and Assumption of Risk (hereinafter "Release of Liability") in favor of Sunni Milo (hereinafter "Landlord") in consideration for the opportunity to use the Landlord's property located at 521 Lafayette St, C, Port Orange, FL 32127 (hereinafter "the Property").

In consideration for the Lease Agreement signed by Landlord and Tenant on Sept. 22, 2023, Tenant hereby waives and releases Landlord, Landlord's employees, heirs, successors, and assigns (hereinafter "Releasees") from any liability and/or claim for personal injury, property damage, or death that may occur from Tenant's use of the Property, even if the cause of such can be associated in any way with the actions or failures to act of Releasees.

By signing this Release of Liability, Tenant accepts total responsibility for any and all injuries or damages of any kind which may result from the use of the Property. It is the Tenant's intention to HOLD HARMLESS the Landlord for any injury or damage sustained by Tenant or anyone else, regardless of cause, while using the Property.

I, Emily Walden Callanan, Todd Millwater, acknowledge that I have carefully read the Release of Liability and understand all of its contents. I understand that by signing the Release of Liability I am waiving certain legal rights, including the right to sue the Landlord for any reason.

Septic Tank Addendum

Not current

Emily Walden Callanan, Todd Millwater
521 Lafayette St, C, Port Orange, FL 32127

The Septic Tank Addendum (hereinafter "the Addendum") is part of and incorporated into the Lease Agreement signed on Sept. 22, 2023 between Sunni Milo (hereinafter "the Landlord") and Emily Walden Callanan, Todd Millwater (hereinafter "the Tenant") for the property located at 521 Lafayette St, C, Port Orange, FL 32127 (hereinafter "the Property").

The property has a septic tank system, which requires care and maintenance to ensure it functions properly. The following care is required to keep the septic tank in good working order and to avoid failure of the entire system.

1. Septic System Treatments. Septic System Treatments, such as Rid-X, ZEP Septi-Pak, or Green Gobbler, can be purchased at hardware stores or grocery stores. These treatments ensure proper bacteria levels in the septic tank.

The Tenant is responsible for flushing a septic tank treatment down the toilet one-time per month. The Tenant is responsible for purchasing these treatments and should refer to the manufacturer's instructions regarding how much is flushed per month. Treatments should be alternated between toilets for properties with more than one toilet.

2. Items That Can Be Flushed Down Toilets. Only the following items are safe to flush down toilets: 1) human waste; 2) toilet paper; 3) septic system treatments (as discussed in section 1).

3. Items That Should Never Be Disposed of Down Any Drain Line. While only the above three things should be flushed down toilets, there are certain items that should never go down any drain line on the Property as they can clog lines, corrode drain lines, or kill helpful bacteria in the septic tank. This can lead to the failure of the entire septic tank system.

Items that should never go down any drain line (for example, toilet, sink, shower, or bath) include grease, coffee grounds, sand, hair, paper towels, diapers, sanitary napkins, tampons, condoms, dental floss, corrosive chemicals (for example, bleach or cleaners), toys, bottle caps, paint, solvents, cat litter or cigarette butts.

The Tenant understands the care that is required to keep the septic tank in good condition and working properly.

The Tenant agrees to comply with all requirements of the Septic Tank Addendum.

The Tenant agrees to timely notify the Landlord in writing of any failure or problems with the septic tank system.

The Tenant agrees and acknowledges that the Tenant is liable for any and all damage to the septic tank system due to either intentional or negligent acts by the Tenant or the Tenant's guests, invitees, agents, or licensees.

The Tenant has read and understands all parts of the Addendum. The Tenant signs the Addendum voluntarily.

Disclosure of Information on Lead-Based Paint and/or Lead-Based Paint Hazard

Lead Warning Statement

Housing built before 1978 may contain lead-based paint. Lead from paint, paint chips, and dust can pose health hazards if not managed properly. Lead exposure is especially harmful to young children and pregnant women. Before renting pre-1978 housing, lessors must disclose the presence of known lead-based paint and/or lead-based paint hazards in the dwelling. Lessees must also receive a federally approved pamphlet on lead poisoning prevention.

Lessor's (Landlord's) Disclosure

(a) Presence of lead-based paint and/or lead-based paint hazards (initial (i) or (ii) below):

(i) _____ Known lead-based paint and/or lead-based paint hazards are present in the housing (explain).

(ii) X Lessor has no knowledge of lead-based paint and/or lead-based paint hazards in the housing.

(b) Records and reports available to the lessor (initial (i) or (ii) below).

(i) _____ Lessor has provided the lessee with all available records and reports pertaining to lead-based paint and/or lead-based paint hazards in the housing. (list documents below)

(ii) _____ Lessor has no reports or records pertaining to lead-based paint and/or lead-based paint hazards in the housing.

Lessee's (Tenant's) Acknowledgment (initial):

(c) _____ Lessee has received copies of all information listed above.

(d) _____ Lessee has received the pamphlet Protect Your Family from Lead in Your Home.

Agent's Acknowledgment (initial):

e) _____ Agent has informed the lessor of the lessor's obligations under 42 U.S.C. 4852(d) and is aware of the responsibility to ensure compliance.

Protect Your Family From Lead in Your Home

Are You Planning to Buy or Rent a Home Built Before 1978?

Did you know that many homes built before 1978 have **lead-based paint**? Lead from paint, chips, and dust can pose serious health hazards.

Read this entire brochure to learn:

- How lead gets into the body
- About health effects of lead
- What you can do to protect your family
- Where to go for more information

Before renting or buying a pre-1978 home or apartment, federal law requires:

- Sellers must disclose known information on lead-based paint or lead-based paint hazards before selling a house.
- Real estate sales contracts must include a specific warning statement about lead-based paint. Buyers have up to 10 days to check for lead.
- Landlords must disclose known information on lead-based paint and lead-based paint hazards before leases take effect. Leases must include a specific warning statement about lead-based paint.

If undertaking renovations, repairs, or painting (RRP) projects in your pre-1978 home or apartment:

- Read EPA's pamphlet, *The Lead-Safe Certified Guide to Renovate Right*, to learn about the lead-safe work practices that contractors are required to follow when working in your home (see page 12).

Simple Steps to Protect Your Family from Lead Hazards

If you think your home has lead-based paint:

- Don't try to remove lead-based paint yourself.
- Always keep painted surfaces in good condition to minimize deterioration.
- Get your home checked for lead hazards. Find a certified inspector or risk assessor at epa.gov/lead.
- Talk to your landlord about fixing surfaces with peeling or chipping paint.
- Regularly clean floors, window sills, and other surfaces.
- Take precautions to avoid exposure to lead dust when remodeling.
- When renovating, repairing, or painting, hire only EPA- or state-approved Lead-Safe certified renovation firms.
- Before buying, renting, or renovating your home, have it checked for lead-based paint.
- Consult your health care provider about testing your children for lead. Your pediatrician can check for lead with a simple blood test.
- Wash children's hands, bottles, pacifiers, and toys often.
- Make sure children avoid fatty (or high fat) foods and eat nutritious meals high in iron and calcium.
- Remove shoes or wipe soil off shoes before entering your house.

Lead Gets into the Body in Many Ways

Adults and children can get lead into their bodies if they:

- Breathe in lead dust (especially during activities such as renovations, repairs, or painting that disturb painted surfaces).
- Swallow lead dust that has settled on food, food preparation surfaces, and other places.
- Eat paint chips or soil that contains lead.

Lead is especially dangerous to children under the age of 6.

- At this age, children's brains and nervous systems are more sensitive to the damaging effects of lead.
- Children's growing bodies absorb more lead.
- Babies and young children often put their hands and other objects in their mouths. These objects can have lead dust on them.

Women of childbearing age should know that lead is dangerous to a developing fetus.

- Women with a high lead level in their system before or during pregnancy risk exposing the fetus to lead through the placenta during fetal development.

Health Effects of Lead

Lead affects the body in many ways. It is important to know that even exposure to low levels of lead can severely harm children.

In children, exposure to lead can cause:

- Nervous system and kidney damage
- Learning disabilities, attention deficit disorder, and decreased intelligence
- Speech, language, and behavior problems
- Poor muscle coordination
- Decreased muscle and bone growth
- Hearing damage

While low-lead exposure is most common, exposure to high amounts of lead can have devastating effects on children, including seizures, unconsciousness, and, in some cases, death.

Although children are especially susceptible to lead exposure, lead can be dangerous for adults, too.

In adults, exposure to lead can cause:

- Harm to a developing fetus
- Increased chance of high blood pressure during pregnancy
- Fertility problems (in men and women)
- High blood pressure
- Digestive problems
- Nerve disorders
- Memory and concentration problems
- Muscle and joint pain

Check Your Family for Lead

Get your children and home tested if you think your home has lead.

Children's blood lead levels tend to increase rapidly from 6 to 12 months of age, and tend to peak at 18 to 24 months of age.

Consult your doctor for advice on testing your children. A simple blood test can detect lead. Blood lead tests are usually recommended for:

- Children at ages 1 and 2
- Children or other family members who have been exposed to high levels of lead
- Children who should be tested under your state or local health screening plan

Your doctor can explain what the test results mean and if more testing will be needed.

Where Lead-Based Paint Is Found

In general, the older your home or childcare facility, the more likely it has lead-based paint.¹

Many homes, including private, federally-assisted, federally-owned housing, and childcare facilities built before 1978 have lead-based paint. In 1978, the federal government banned consumer uses of lead-containing paint.²

Learn how to determine if paint is lead-based paint on page 7.

Lead can be found:

- In homes and childcare facilities in the city, country, or suburbs,
- In private and public single-family homes and apartments,
- On surfaces inside and outside of the house, and
- In soil around a home. (Soil can pick up lead from exterior paint or other sources, such as past use of leaded gas in cars.)

Learn more about where lead is found at epa.gov/lead.

¹ "Lead-based paint" is currently defined by the federal government as paint with lead levels greater than or equal to 1.0 milligram per square centimeter (mg/cm), or more than 0.5% by weight.

² "Lead-containing paint" is currently defined by the federal government as lead in new dried paint in excess of 90 parts per million (ppm) by weight.

Identifying Lead-Based Paint and Lead-Based Paint Hazards

Deteriorating lead-based paint (peeling, chipping, chalking, cracking, or damaged paint) is a hazard and needs immediate attention. **Lead-based paint** may also be a hazard when found on surfaces that children can chew or that get a lot of wear and tear, such as:

- On windows and window sills
- Doors and door frames
- Stairs, railings, banisters, and porches

Lead-based paint is usually not a hazard if it is in good condition and if it is not on an impact or friction surface like a window.

Lead dust can form when lead-based paint is scraped, sanded, or heated. Lead dust also forms when painted surfaces containing lead bump or rub together. Lead paint chips and dust can get on surfaces and objects that people touch. Settled lead dust can reenter the air when the home is vacuumed or swept, or when people walk through it. EPA currently defines the following levels of lead in dust as hazardous:

- 40 micrograms per square foot ($\mu\text{g}/\text{ft}^2$) and higher for floors, including carpeted floors
- 250 $\mu\text{g}/\text{ft}^2$ and higher for interior window sills

Lead in soil can be a hazard when children play in bare soil or when people bring soil into the house on their shoes. EPA currently defines the following levels of lead in soil as hazardous:

- 400 parts per million (ppm) and higher in play areas of bare soil
- 1,200 ppm (average) and higher in bare soil in the remainder of the yard

Remember, lead from paint chips—which you can see—and lead dust—which you may not be able to see—both can be hazards.

The only way to find out if paint, dust, or soil lead hazards exist is to test for them. The next page describes how to do this.

Checking Your Home for Lead

You can get your home tested for lead in several different ways:

- A lead-based paint **inspection** tells you if your home has lead-based paint and where it is located. It won't tell you whether your home currently has lead hazards. A trained and certified testing professional, called a lead-based paint inspector, will conduct a paint inspection using methods, such as:
 - Portable x-ray fluorescence (XRF) machine
 - Lab tests of paint samples
- A **risk assessment** tells you if your home currently has any lead hazards from lead in paint, dust, or soil. It also tells you *what* actions to take to address any hazards. A trained and certified testing professional, called a risk assessor, will:
 - Sample paint that is deteriorated on doors, windows, floors, stairs, and walls
 - Sample dust near painted surfaces and sample bare soil in the yard
 - Get lab tests of paint, dust, and soil samples
- A combination inspection and risk assessment tells you if your home has any lead-based paint and if your home has any lead hazards, and where both are located.

Be sure to read the report provided to you after your inspection or risk assessment is completed, and ask questions about anything you do not understand.

Checking Your Home for Lead, continued

In preparing for renovation, repair, or painting work in a pre-1978 home, Lead-Safe Certified renovators (see page 12) may:

- Take paint chip samples to determine if lead-based paint is present in the area planned for renovation and send them to an EPA-recognized lead lab for analysis. In housing receiving federal assistance, the person collecting these samples must be a certified lead-based paint inspector or risk assessor
- Use EPA-recognized tests kits to determine if lead-based paint is absent (but not in housing receiving federal assistance)
- Presume that lead-based paint is present and use lead-safe work practices

There are state and federal programs in place to ensure that testing is done safely, reliably, and effectively. Contact your state or local agency for more information, visit epa.gov/lead, or call **1-800-424-LEAD (5323)** for a list of contacts in your area.³

³ Hearing- or speech-challenged individuals may access this number through TTY by calling the Federal Relay Service at 1-800-877-8399.

What You Can Do Now to Protect Your Family

If you suspect that your house has lead-based paint hazards, you can take some immediate steps to reduce your family's risk:

- If you rent, notify your landlord of peeling or chipping paint.
- Keep painted surfaces clean and free of dust. Clean floors, window frames, window sills, and other surfaces weekly. Use a mop or sponge with warm water and a general all-purpose cleaner. (Remember: never mix ammonia and bleach products together because they can form a dangerous gas.)
- Carefully clean up paint chips immediately without creating dust.
- Thoroughly rinse sponges and mop heads often during cleaning of dirty or dusty areas, and again afterward.
- Wash your hands and your children's hands often, especially before they eat and before nap time and bed time.
- Keep play areas clean. Wash bottles, pacifiers, toys, and stuffed animals regularly.
- Keep children from chewing window sills or other painted surfaces, or eating soil.
- When renovating, repairing, or painting, hire only EPA- or state-approved Lead-Safe Certified renovation firms (see page 12).
- Clean or remove shoes before entering your home to avoid tracking in lead from soil.
- Make sure children avoid fatty (or high fat) foods and eat nutritious meals high in iron and calcium. Children with good diets absorb less lead.

Reducing Lead Hazards

Disturbing lead-based paint or removing lead improperly can increase the hazard to your family by spreading even more lead dust around the house.

- In addition to day-to-day cleaning and good nutrition, you can **temporarily** reduce lead-based paint hazards by taking actions, such as repairing damaged painted surfaces and planting grass to cover lead-contaminated soil. These actions are not permanent solutions and will need ongoing attention.
- You can minimize exposure to lead when renovating, repairing, or painting by hiring an EPA- or state-certified renovator who is trained in the use of lead-safe work practices. If you are a do-it-yourselfer, learn how to use lead-safe work practices in your home.
- To remove lead hazards permanently, you should hire a certified lead abatement contractor. Abatement (or permanent hazard elimination) methods include removing, sealing, or enclosing lead-based paint with special materials. Just painting over the hazard with regular paint is not permanent control.

Always use a certified contractor who is trained to address lead hazards safely.

- Hire a Lead-Safe Certified firm (see page 12) to perform renovation, repair, or painting (RRP) projects that disturb painted surfaces.
- To correct lead hazards permanently, hire a certified lead abatement professional. This will ensure your contractor knows how to work safely and has the proper equipment to clean up thoroughly.

Certified contractors will employ qualified workers and follow strict safety rules as set by their state or by the federal government.

Reducing Lead Hazards, continued

If your home has had lead abatement work done or if the housing is receiving federal assistance, once the work is completed, dust cleanup activities must be conducted until clearance testing indicates that lead dust levels are below the following levels:

- 40 micrograms per square foot ($\mu\text{g}/\text{ft}^2$) for floors, including carpeted floors
- 250 $\mu\text{g}/\text{ft}^2$ for interior windows sills
- 400 $\mu\text{g}/\text{ft}^2$ for window troughs

For help in locating certified lead abatement professionals in your area, call your state or local agency (see pages 14 and 15), or visit epa.gov/lead, or call 1-800-424-LEAD.

Renovating, Remodeling, or Repairing (RRP) a Home with Lead-Based Paint

If you hire a contractor to conduct renovation, repair, or painting (RRP) projects in your pre-1978 home or childcare facility (such as pre-school and kindergarten), your contractor must:

- Be a Lead-Safe Certified firm approved by EPA or an EPA-authorized state program
- Use qualified trained individuals (Lead-Safe Certified renovators) who follow specific lead-safe work practices to prevent lead contamination
- Provide a copy of EPA's lead hazard information document, *The Lead-Safe Certified Guide to Renovate Right*

RRP contractors working in pre-1978 homes and childcare facilities must follow lead-safe work practices that:

- **Contain the work area.** The area must be contained so that dust and debris do not escape from the work area. Warning signs must be put up, and plastic or other impermeable material and tape must be used.
- **Avoid renovation methods that generate large amounts of lead-contaminated dust.** Some methods generate so much lead-contaminated dust that their use is prohibited. They are:
 - Open-flame burning or torching
 - Sanding, grinding, planing, needle gunning, or blasting with power tools and equipment not equipped with a shroud and HEPA vacuum attachment and
 - Using a heat gun at temperatures greater than 1100°F
- **Clean up thoroughly.** The work area should be cleaned up daily. When all the work is done, the area must be cleaned up using special cleaning methods.
- **Dispose of waste properly.** Collect and seal waste in a heavy duty bag or sheeting. When transported, ensure that waste is contained to prevent release of dust and debris.

Other Sources of Lead

While paint, dust, and soil are the most common sources of lead, other lead sources also exist:

- **Drinking water.** Your home might have plumbing with lead or lead solder. You cannot see, smell, or taste lead, and boiling your water will not get rid of lead. If you think your plumbing might contain lead:

- Use only cold water for drinking and cooking.
- Run water for 15 to 30 seconds before drinking it, especially if you have not used your water for a few hours.

Call your local health department or water supplier to find out about testing your water, or visit epa.gov/lead for EPA's lead in drinking water information.

- **Lead smelters** or other industries that release lead into the air.
- **Your job.** If you work with lead, you could bring it home on your body or clothes. Shower and change clothes before coming home. Launder your work clothes separately from the rest of your family's clothes.
- **Hobbies** that use lead, such as making pottery or stained glass, or refinishing furniture. Call your local health department for information about hobbies that may use lead.
- Old **toys** and **furniture** may have been painted with lead-containing paint. Older toys and other children's products may have parts that contain lead.⁴
- Food and liquids cooked or stored in **lead crystal** or **lead-glazed pottery or porcelain** may contain lead.
- Folk remedies, such as "**greta**" and "**azarcon**," used to treat an upset stomach.

⁴ In 1978, the federal government banned toys, other children's products, and furniture with lead-containing paint (16 CFR 1303). In 2008, the federal government banned lead in most children's products. The federal government currently bans lead in excess of 100 ppm by weight in most children's products (76 FR 44463).

State and Local Health and Environmental Agencies

Some states, tribes, and cities have their own rules related to lead-based paint. Check with your local agency to see which laws apply to you. Most agencies can also provide information on finding a lead abatement firm in your area, and on possible sources of financial aid for reducing lead hazards. Receive up-to-date address and phone information for your state or local contacts on the Web at epa.gov/lead, or contact the National Lead Information Center at **1-800-424-LEAD**.

IMPORTANT!

Lead From Paint, Dust, and Soil in and Around Your Home Can Be Dangerous if Not Managed Properly

- Children under 6 years old are most at risk for lead poisoning in your home.
- Lead exposure can harm young children and babies even before they are born.
- Homes, schools, and child care facilities built before 1978 are likely to contain lead-based paint.
- Even children who seem healthy may have dangerous levels of lead in their bodies.
- Disturbing surfaces with lead-based paint or removing lead-based paint improperly can increase the danger to your family.
- People can get lead into their bodies by breathing or swallowing lead dust, or by eating soil or paint chips containing lead.
- People have many options for reducing lead hazards. Generally, lead-based paint that is in good condition is not a hazard (see page 10).
